Details/Application

This product is suitable for cleaning hands soiled during work in industrial settings such as automotive maintenance, metal-working, and the oil and metal industries.

Instructions

1. Take an appropriate amount (approx. 3 mL) of hand cleaner onto dry or wet hands and rub thoroughly.
2. Then rinse well with water and dry your hands.

3. Repeat the process if necessary.

Notice

If too much Hand Cleaner, or insufficient (or no) water is used when washing, skin irritation can occur in some cases.
